

ACRYLAC[®] Fit 10 T 0606

Special properties

Reduces varnish tack on rollers, rubber blanket, and plate after a short press stoppage.

Prevents stock from sticking when press is restarted after a short stoppage.

Reduces washing times.

Applications

Use the pump sprayer to apply to rubber blanket, plate, and rollers before printing continues. This reduces varnish tack so the press can be restarted after a short stoppage without washing.

Labelling

German Hazardous Substances Ordinance (GefStoffV): none

German Flammable Liquids Ordinance (VbF): none

Safety data sheet available on request.
