

PRINTLAC[®] Matt 20H 9300 PRINTLAC[®] Matt Satin 20H 9100

Printing varnishes for commercial web offset
(wet-on-wet)

Application

To obtain matt effects and good rub resistance, this varnish can be applied from an unused inking unit using the wet offset process. Spot and full-surface varnishing is possible.

Special properties

- Very good matt effect
- Very good matt satin effect
- Good drying
- Good rub resistance
- Minimal tendency to yellow

Cleaning

We recommend standard washup solutions – as also used to remove heatset inks – for cleaning rollers, rubber blankets, printing plates, etc.

Special instructions

Apply in the same way as heatset inks, namely from the inking unit using the wet offset process.

Classification

Code per German law on hazardous substances (GefStoffV): None
Safety Data Sheet available on request.
