

INKREDIBLE

## !NKREDIBLE GOOD NEWS FIX

Dampening additive for coldset web offset

### 9375 09

for water with a hydrogen carbonate content  
up to 250 mg/l

### 9375 19

for water with a hydrogen carbonate content  
above 250 mg/l

### 9375 29

for re-hardened water from reverse osmosis with SALINOFIX®

### Application

!NKREDIBLE GOOD NEWS FIX was developed specifically for use on web offset newspaper printing presses with non-contact dampening units (spray dampening units).

It helps to quickly establish a stable ink/water balance and contributes to rapid clean running plates. Fountain solution delivery to the printing plate can be considerably reduced.

!NKREDIBLE GOOD NEWS FIX is suitable for all types of printing plates like CtP, positive and negative plates.

### Special properties

- Very fast clean running plates.
- Formation of a stable, thin film of fountain solution due to a specific reduction of surface tension.
- Good protection of printing plates.
- Considerable reduction in the build-up of paper debris on the blanket.
- Effective corrosion inhibitors offer excellent protection for materials.
- Suitable for all types of printing plates.

### Quantity to be added

The recommended concentration for use is 2 %

### Labelling

Safety data sheet available on request

### How supplied

10-kg plastic container  
220-kg plastic drums  
500-kg returnable drums
